An incredibly responsive Multi-Touch screen. A large, high-resolution LED-backlit IPS display. A design that's thin and light enough to take anywhere. iPad isn't just the best device of its kind — it's a whole new kind of device. And it's poised to change the learning landscape. All of the built-in apps on iPad were designed from the ground up to take advantage of the large Multi-Touch screen. So you can flick, tap, and pinch your way through the school day.
